INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners
Wauconda Park District
Wauconda, Illinois

Opinions

I have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Wauconda Park District, as of and for the year ended April 30, 2025, and the related notes to the financial statements, which collectively comprise the Wauconda Park District's basic financial statements as listed in the table of contents.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Wauconda Park District, as of April 30, 2025, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am required to be independent of the Wauconda Park District, and to meet my other ethical responsibilities, in accordance with the relevant ethical requirements relating to my audit. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Wauconda Park District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, I:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Wauconda Park District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in my judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Wauconda Park District's ability to continue as a going concern for a reasonable period of time.

I am required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that I identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Wauconda Park District's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and my auditor's report thereon. My opinions on the basic financial statements do not cover the other information, and I do not express an opinion or any form of assurance thereon.

In connection with my audit of the basic financial statements, my responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, I conclude that an uncorrected material misstatement of the other information exists, I am required to describe it in my report.

Management's Discussion and Analysis April 30, 2025

The Wauconda Park District (the District) offers readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended April 30, 2024. This discussion and analysis is designed to: (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the District's financial activity, (3) identify changes in the District's recent activities resulting in net position changes, (4) identify any material deviations from the financial plan (the budget), and (5) identify any individual fund issues or concerns.

The major components of the financial statements are the statement of net position and the statement of activities. The statement of net position shows the total assets and liabilities of the District. The statement of activities reflects the total operations of the District for the past year, shown first net of revenues from taxes, interest and miscellaneous items and then in total.

Since the MD&A is designed to focus on the current year's activities, resulting changes and currently known facts, please read it in conjunction with the District's financial statements beginning on page 4.

District Profile

The Wauconda Park District is located in the southeastern part of Wauconda Township on the banks of beautiful Bangs Lake. The Wauconda Park District was established as a separate governmental agency in April 1959 and is governed by a Board – Director form of government. The Board consists of five individuals who are elected from the District at large to serve four- year staggered terms. The Board employs a Director who is responsible for the day to day operations.

The Wauconda Park District's mission is "to enrich lives in the community by providing quality recreation and leisure opportunities". The District has four core values, that they operate by which are Integrity, Teamwork, Service and Commitment.

District facilities include a Community Center which houses the District's Fitness First center, Beach House/Preschool building, Marina facility, Phil's Beach and a Maintenance shop. The District also manages approximately 100 acres of parkland and 15 park sites which include various baseball/softball fields, soccer/football fields, tennis courts, playgrounds, basketball courts, handicap accessible fishing pier, and picnic areas.

Financial Highlights

- Overall government wide revenues this past year were \$4,471,313 representing a 6% increase over the previous year's total revenue of \$4,168,823. Expenses were \$3,905,684 compared to the previous year's expenses of \$3,587,331, representing an increase of 8.8% overall in expenses.
- Total net position was \$9,458,230 as of April 30, 2025, compared to \$9,052,601 previous year.
- Taxes levied and collected were \$2,067,247.
- Total Charges for Services were \$2,169,872 over the past year compared to \$1,727,953 for the previous year. Property taxes accounted for 15.53% of the Recreation fund budget.
- The District currently has the ability to devote resources toward maintaining its parks, playgrounds and facilities as well as adding valuable assets. In fiscal year 2025, \$397,427 was spent on capital outlay for the District's infrastructure.

Overview of the Financial Statements

Management's Discussion and Analysis introduces the District's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements and (3) notes to the financial statements. The District also includes in this report additional information to supplement the basic financial statements.

Government-wide Financial Statements

The District's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the District's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The first of these government-wide statements is the *Statement of Net Position*. This is the District-wide statement of position presenting information that includes all of the District's assets and liabilities, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other non-financial factors such as diversification of the taxpayer base or the condition of the District's infrastructure in addition to the financial information provided in this report.

The second government-wide statement is the *Statement of Activities* that reports how the District's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the District's distinct activities or functions on revenues provided by the District's taxpayers.

Both government-wide financial statements distinguish governmental activities of the District that are principally supported by taxes and intergovernmental revenues, such as grants, from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. The District does not have any funds that would be considered business-type activities.

The government-wide financial statements are presented beginning on page 4 of this report.

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The District uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the District's most significant funds rather than the District as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for non-major funds is provided in the form of combining statements in a later section of this report.

Governmental funds are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to assist in understanding the differences between these two perspectives.

Budgetary comparison statements are included in the basic financial statements for the general fund and major special revenue funds. Budgetary comparison schedules for other special revenue funds can be found in a later section of this report. These statements and schedules demonstrate compliance with the District's adopted annual appropriated budget.

The basic governmental fund financial statements are presented beginning on page 6 of this report.

Notes to the Financial Statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin on page 12 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. The supplementary information includes information concerning the District's IMRF employee pension obligations as well as computation of District's legal debt margin detail and assessed valuations. Supplementary information can be found beginning on page 35 of this report.

Major funds are reported in the basic financial statements as discussed. Combining and individual statements and schedules for non-major funds are presented in a subsequent section of this report beginning on page 42.

Government-wide Financial Analysis

Over time, as year-to-year financial information is accumulated on a consistent basis, changes in net position may be observed and used to discuss the changing financial position of the District as whole. The following tables show that in the case of the Wauconda Park District, assets exceeded liabilities/deferred inflows by \$9,458,230.

| | Condensed Statement of Net Position | |

A large portion of the District's net position, \$7,094,257 or 77% percent reflects its net investment in capital assets (for example: land, buildings, machinery and equipment). The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. An additional portion, \$357,264 or 3.7%, of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining 19.3%, or \$2,006,709 represents unrestricted net position and may be used to meet the government's ongoing obligations to citizens and creditors.

Net position of the District increased by 9.571% from \$9,052,601 to \$9,458,230.

Financial Analysis of the District's Funds

Governmental Funds

As discussed, governmental funds are reported in the fund statements with a short-term inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements.

Governmental funds reported ending fund balances of \$2,363,973. Restricted fund balances were \$357,264. Non-Spendable fund balances total \$61,931, which consists of resources that cannot be spent because of their form. \$2,006,709 is unassigned, which consists of resources which have no constraints resulting from intended use.

The total ending fund balance of Governmental Funds was \$3,072,299, representing a 12.3% increase from the previous year balance of \$2,736,778, primarily due to an increase in interest on funds invested.

Major Governmental Funds

The General, Recreation, Capital Projects, and Debt Service funds are the primary operating funds of the District. The fund balance of the General Fund as of April 30, 2025 was \$698,451. The Recreation Fund's fund balance was \$1,056,392, the Capital Projects Fund balance was \$1,314,993 and the Debt Service Fund's balance was \$(104,906).

General Fund Budgetary Highlights

The General Fund is reported as a major fund and accounts for the routine park operations of the District. Revenues in the General Fund were \$1,027,308, which was \$194,780 over budget. Expenditures were \$885,284 which was \$38,028 over budget. The net budget variance was \$156,752. The fund balance increased to \$698,451 at year end from \$676,427 in the previous year, primarily due to interest.

Capital Asset and Debt Administration

Capital Assets

The District’s capital assets, net of accumulated depreciation for governmental activities as of April 30, 2025 was \$9,047,212. This investment in capital assets includes land, construction in process, buildings and improvements and vehicles and equipment.

| | Capital Assets - Net of Depreciation | |
|-----------------------------|--------------------------------------|------------------|
| | 2025 | 2024 |
| Land | 2,925,176 | 2,925,176 |
| Land Improvements | 3,148,149 | 3,048,164 |
| Buildings and Improvements | 2,566,297 | 2,571,759 |
| Machinery and Equipment | 278,323 | 287,518 |
| Vehicles | 129,267 | 154,531 |
| Total Capital Assets | 9,047,212 | 8,987,148 |

Debt Administration

The fund balance of the Debt Service Fund was \$15,095 as of April 30, 2025. A \$1,230,000 General Obligation Bond (ARS) for the purchase of a second Marina at 3% interest. A \$720,000 General Obligation Bond (ARS) for funding various capital projects. And a 231,700 General Obligation Bond (ARS) for funding various capital projects.

| | Long Term Debt Outstanding | |
|--------------------------|----------------------------|-----------|
| | 2025 | 2024 |
| General Obligation Bonds | 1,952,955 | 2,021,700 |

State statute limits the amount of general obligation debt a non-home rule government entity may issue to 2.875 percent of its total valuation. The current debt margin for the District is \$15,109,432. Additional information on the District’s long-term debt can be found in Note 4.

Economic Factors and Next Year’s Budget and Rates

The Wauconda Park District’s elected and appointed officials considered many factors when setting the fiscal year budget and fees that will be charged for its governmental activities. One major factor anticipated to affect fees in the coming years is the Illinois Minimum Wage Law (820 ILCS 105) increasing minimum wage rates.

Contacting the District's Financial Management

This financial report is designed to provide a general overview of the District's finances, comply with finance related laws and regulations and demonstrate the District's commitment to public accountability. If you have any questions about this report or would like to request additional information, please contact the Director for the Park District located at 600 N. Main St., Wauconda, IL 60084.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Wauconda Park District is an Illinois local government located in Lake County. The following significant accounting policies are presented to assist the reader in evaluating the financial statements.

A. Reporting Entity

The District is established under Illinois Compiled Statutes (ILCS) incorporated in 1947. The District operates under a President-Commissioner form of government, providing recreation and other services to the residents of the Village of Wauconda including recreation programs, park management, capital development and general administration. The District has a separately elected board and is considered to be a primary government as defined by GASB Statement No. 14 and No. 61, since it is legally separate and fiscally independent. The accompanying basic financial statements present the District only since the District does not have component units.

B. Fund Accounting

The District uses funds to report on its financial position and the changes in its financial position. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds are classified into the following categories: governmental, proprietary and fiduciary. The District does not have any proprietary or fiduciary funds.

Governmental funds are used to account for all of the government's general activities, including the collection and disbursement of restricted, committed or assigned monies (special revenue funds), the funds restricted, committed or assigned for the acquisition or construction of capital assets (capital projects funds) and the funds restricted for the servicing of governmental long-term debt (debt service funds). The General Fund (corporate) is used to account for all activities of the government not accounted for in some other fund.

C. Government Wide, Fund Financial Statements and Basis of Accounting

The Park District's financial statements (i.e. the Statement of Net Assets and the Statement of Activities) include all government activities, organizations and functions for which the board of commissioners has oversight responsibility. Therefore, they include all of the Governmental Funds of the District whose expenditures are approved by the Board.

Separate financial statements are provided for all major funds.

The government wide financial statements are reported using the accrual basis of accounting. With this measurement focus, all assets and all liabilities associated with the operation of these activities/funds are included on the statement of net position. Revenues are recorded when earned and expenses are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Program revenues consist of user fees and other charges for services, operating grants and capital grants.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The financial transactions of the Park District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the Park District:

Governmental Funds

The focus of the governmental funds measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income.

- a. General Fund is the general operating fund of the Park District. It is used to account for all financial resources except those required to be accounted for in another fund.
- b. Special Revenue Funds are used to account for the proceed of specific revenue sources that are legally restricted to expenditures for a particular purpose.

The Park District reports the following major governmental funds:

Recreation Fund is used to account for the collection of funds relating to recreational activities and the accumulation of the costs related to all recreational activities. These collections of funds are classified as program revenues.

Capital Projects Fund is used to account for the purchase or construction of major capital facilities.

Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt, principal, interest and related costs.

D. Government Wide, Fund Financial Statements

The Statement of Net Position and the Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statement distinguishes between governmental and business type activities, when applicable. Governmental activities generally are financed through taxes. Business type activities are financed in whole or in part by fees charged to external parties for goods and services.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include charges to residents who use or benefit from goods, services, or privileges provided by a given function, and grants and contributions that are restricted to meeting operational and capital requirements of a particular function. Taxes and other income items that are not specifically related to a function are reported as general revenues.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Separate financial statements are provided for governmental, business type, and fiduciary funds, when applicable, even though the latter are excluded from the government- wide financial statements. Major individual government funds are reported in separate columns in the fund financial statements.

E. Budgets

The Park District's budget is prepared on the cash basis of accounting which does not differ significantly from the basis of accounting required by generally accepted accounting principles.

Appropriations lapse at year end and there were no modifications to the ordinance as originally passed. The appropriations represent the legal spending limit. To obtain greater budgetary control, the Board also approves an operating budget. A summary of the differences by fund between the appropriations ordinance and operating budget is presented below:

| <u>Fund</u> | <u>Budgeted Expenditures</u> | <u>Total Appropriations</u> |
|--------------|------------------------------|-----------------------------|
| Corporate | \$874,256 | \$1,180,246 |
| Recreation | 2,909,137 | 3,927,334 |
| Capital | 1,258,500 | 1,698,975 |
| Debt Service | 232,000 | 313,200 |
| Non Major | | |
| Governmental | <u>560,751</u> | <u>757,014</u> |
| Totals | <u><u>\$5,834,644</u></u> | <u><u>\$7,876,769</u></u> |

F. Cash and Investments

The Park District's cash and cash equivalents consist of bank deposits. Investments in certificates of deposit are recorded at cost plus interest credited to the account. These investments have been authorized by the Park Board.

Investments with maturities greater than one year, if any, are stated at fair value. The District categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on valuation inputs used to measure the fair value of the asset. The District held no investments to measure at fair value at April 30, 2025.

G. Property Taxes

It is the Park District's intention that property taxes generated from the 2024 property tax levy be used to finance the operating budget for the year ended April 30, 2025. The annual ordinance for 2024 was passed December 13, 2024. Property taxes are paid in two installments June 6 and September 6. Therefore, property tax receipts represent the receipts generated by the 2024 property tax levy.

The Park District's property tax is levied on or before the fourth Tuesday in December each year on all taxable real property located in the Park District. Property taxes attach as an enforceable lien on property as of January 1. Property taxes which have been levied but are not due before the end of the fiscal year

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

are recorded as receivable. The entire receivable is offset by unavailable/deferred property tax revenue as they are intended to finance the subsequent fiscal year.

H. Compensated Absences

Vacation Pay – Full-time employees are eligible for five vacation days which may be carried over to the next year. After five years of employment a request can be made to payout the five carry over days rather than accumulate them. A maximum of 20 vacation days will be paid out upon separation from the District.

Sick Pay – Full-time employees are allowed to accumulate a maximum of 60 sick days. Unused sick pay at termination will not be paid.

I. Inventories

Inventories consist of amounts available for resale and are accounted for using the consumption method. Inventories are valued at cost on the first-in/first-out (FIFO) method.

J. Prepaid Expenses

Certain payments to vendors reflect costs applicable to future accounting periods, and are recorded as prepaid expenses using the consumption method. Such amounts are offset by nonspendable fund balance for prepaid expenses in the fund financial statements.

K. Capital Assets

Capital assets, which include land, buildings, building improvements, and equipment, are reported in the government-wide financial statements. The Park District defines capital assets as assets with an estimated useful life in excess of one year. Such assets are recorded at historical cost if purchased or constructed. Donated assets are stated at estimated fair market value as of the date of acquisition.

The cost of normal maintenance and repair that do not add to the values of the asset or materially extend the useful life are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. All capital assets, except land and construction in progress which are not depreciated, are being depreciated using the straight-line method over the following useful lives. The capitalization threshold for all equipment is \$2,500.

| <u>Assets</u> | <u>Years</u> |
|------------------------------------|--------------|
| Land Improvements | 20 |
| Building and building improvements | 7-25 |
| Machinery and Equipment | 5-20 |
| Vehicles | 8 |

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

L. Long-Term Liabilities

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities financial statements. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

M. Net Position/Fund Balances

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose or externally imposed by outside entities. None of the restricted fund balance result from enabling legislation adopted by the District. Committed fund balance is constrained by formal actions of the District's Board of Commissioners, which is considered the District's highest level of decision-making authority. Formal actions include ordinances approved by the Board of Commissioners. The Board of Commissioners would also take action to modify or rescind committed fund balance, if applicable. Assigned fund balance represents amounts constrained by the District's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the Executive Director and Accounting Manager through the approved fund balance policy of the District. Any residual fund balance in the General Fund is reported as unassigned. Deficit fund balances in other governmental funds are also reported as unassigned.

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the District considers committed funds to be expended first followed by assigned and then unassigned funds.

In the government-wide financial statements, restricted net position is legally restricted by outside parties for a specific purpose. Net investment in capital assets represents the District's investment in the book value of capital assets, less any outstanding debt that was issued to construct or acquire the capital asset.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Deferred inflows are also reported related to pension items.

O. Interfund Transactions

Reciprocal interfund service transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions are reported as transfers.

P. Interfund Receivables/Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other fund” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the noncurrent portion of interfund loans).

Q. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

2. DEPOSITS AND INVESTMENTS

ILCS and the District’s investment policy authorize the District to make deposits/invest in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, money market mutual funds with portfolios of securities issued or guaranteed by the United States Government or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services and the Illinois Park District Liquid fund.

2. DEPOSITS AND INVESTMENTS (Continued)

It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the “prudent person” standard for managing the overall portfolio. The primary objective of the policy is safety (preservation of capital and protection of investment principal), liquidity and yield.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank’s failure, the District’s deposits may not be returned to it. The District’s investment policy requires pledging of collateral of all bank balances in excess of federal depository insurance with the collateral held by a third party in the District’s name.

Investments

Interest rate risk is the risk that change in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the District limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for operating funds.

The District limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in obligations guaranteed by the United States Government or securities issued by agencies of the United States Government that are explicitly or implicitly guaranteed by the United States Government.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the District will not be able to recover the value of its investments that are in possession of an outside party. Illinois Funds are not subject to custodial credit risk. The District’s investment policy does not address custodial credit risk for investments.

Concentration of credit risk is the risk of loss attributed to the magnitude of the District’s investment in a single issuer. The District’s investment policy does not address concentration of credit risk.

As of April 30, 2025, the District had the following investments and maturities:

| <u>Investment</u> | <u>Fair Value</u> | <u>Investment maturities (less than one year)</u> |
|-----------------------|-------------------|---|
| State Investment Pool | \$3,131,202 | \$3,131,202 |

The fair value of investments in the State Investment Pool is the same as the value of pool shares. The State Investment Pool is not SEC-registered but does have regulatory oversight through the State of Illinois.

3. CAPITAL ASSETS

Capital asset activity for the year ended April 30, 2025, was as follows:

| Governmental Activities: | Balance 5/1/24 | Additions | Deletions | Balance 4/30/25 |
|--|----------------|------------|-----------|-----------------|

The \$1,230,000 General Obligation Park Bond (Alternative Revenue Source), Series 2021A, was authorized for the purpose of funding various capital projects. It is dated December 7, 2021 and provides for principal payments between \$40,000 and \$125,000. 6. JOINT GOVERNED ORGANIZATION

The District is a member of the Northern Illinois Special Recreation Association (NISRA), which was organized by several area park districts in order to provide special recreation programs to the physically and mentally handicapped within their districts and to share the expenses of such programs on a cooperative basis. Each member district’s contribution is based upon a formula set out in the operating agreement. NISRA’s Board of Directors consists of one member from each participating district. The Board of Directors is the governing body of NISRA and is responsible for establishing all major policies and changes therein and for approving all budgets, capital outlay, programming and master plans. The District is not financially accountable for the activities of NISRA and, accordingly, NISRA has not been included in the accompanying financial statements. The financial statements of NISRA 285 Memorial Dr., Crystal Lake, Illinois, 60014.

7. RISK MANAGEMENT

The District is exposed to various risks related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries and illness to employees; and net income losses. The District's health insurance is purchased through the Park District Risk Management Agency (PDRMA) and pays agreed-upon annual premiums on a monthly basis.

The District is a member of PDRMA, a risk management pool of park and forest preserve districts and special recreation associations through which property, general liability, automobile liability, crime, boiler and machinery, public officials' and workers' compensation coverage is provided in excess of specified limits for the members, acting as a single insurable unit. In the event losses exceeded the per occurrence self-insured and reinsurance limit, the District would be liable for the excess amount. PDRMA's Board of Directors evaluates the aggregate self-insured limit annually.

The District is contractually obligated to make all annual and supplementary contributions to PDRMA, to report claims on a timely basis, to cooperate with PDRMA, its claims administrator and attorneys in claims investigation and settlement and to follow risk management procedures as outlined by PDRMA. Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member.

PDRMA is responsible for administering the self-insurance program and purchasing excess insurance according to the direction of the Program Council. PDRMA also provides its members with risk management services, including the defense of and settlement of claims, and establishes reasonable and necessary loss reduction and prevention procedures to be followed by the members.

Since 96% of PDRMA's liabilities are reserves for losses and loss adjustment expenses which are based on an actuarial estimate of the ultimate losses incurred, the member balances are adjusted annually as more recent loss information becomes available.

8. Retirement Fund Commitments

Illinois Municipal Retirement Fund

The District's defined benefit pension plan, Illinois Municipal Retirement Fund (IMRF), provides retirement, disability, annual cost of living adjustments and death benefits to plan members and beneficiaries. IMRF is an agent multiple-employer pension plan that acts as a common investment and administrative agent for local governments and school districts in Illinois. The Illinois Pension Code establishes the benefit provisions of the plan that can only be amended by the Illinois General Assembly. IMRF issues a publicly available report that includes financial statements and supplementary information for the plan as a whole but not by individual employer.

That report may be obtained by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook, Illinois 60523 or at www.imrf.org.

Plan Administration

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

8. Retirement Fund Commitments (Continued)

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Plan Membership

At December 31, 2024 (most recent information available), IMRF membership consisted of:

| | |
|--|------------------|
| Inactive employees or their beneficiaries currently receiving benefits | 15 |
| Inactive employees entitled to but not yet receiving benefits | 30 |
| Active employees | <u>20</u> |
| TOTAL | <u><u>65</u></u> |

Benefits Provided

IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

Contributions

Participating members are required to contribute 4.50% of their annual covered salary to IMRF. The District is required to contribute the remaining amounts necessary to fund IMRF as specified by statute. The employer contribution rate for the fiscal year ended April 30, 2025, was 9.79% (8.78% in 2024) of covered payroll.

Actuarial Assumptions

The District's net pension liability was measured as of December 31, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables and future mortality improvements were projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables and future mortality improvements were projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables and future mortality improvements were projected using scale MP-2020.

Discount Rate

The discount rate used to measure the total pension liability was 7.25% in 2024. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the District's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

9. Other Postemployment Benefits

a. Plan Description

In addition to providing the pension benefits described, the District provides other postemployment health care benefits (OPEB) for retired employees through a single- employer defined benefit plan. The benefits, benefit levels, employee contributions and employer contributions are governed by the District and can be amended by the District through its personnel manual. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. The plan does not issue a separate report. The activity of the plan is reported in the District's governmental activities.

b. Benefits Provided

The District provides continued health insurance coverage at the active employer rate to all eligible employees in accordance with ILCS, which creates an implicit subsidy of retiree health insurance. To be eligible for benefits, an employee must qualify for retirement under the District's retirement plan. Upon a retiree reaching age 65 years of age, Medicare becomes the primary insurer and the retiree is no longer eligible to participate in the plan, but can purchase a Medicare supplement plan from the District's insurance provider.

g. Rate Sensitivity

The following is a sensitive analysis of total OPEB liability to changes in the discount rate and the healthcare cost trend rate. The table below presents the total OPEB liability of the District calculated using the discount rate of 4.14% as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower than the valuation rate or 1 percentage point higher than the current rate:

| | 1% Increase | Current Discount Rate Valuation Rate | 1% Decrease |
|--------------------|-------------|--|-------------|
| Net OPEB Liability | \$85,843 | \$92,651 | \$100,095 |
| Change | (7.35%) | | 8.04% |

g. Rate Sensitivity (Continued)

The table below presents the total OPEB liability of the District calculated using the healthcare rate of 5.50% as well as what the District's total OPEB liability would be if it were calculated using a healthcare rate that is 1 percentage point lower 4.50% or 1 percentage point higher 6.50% than the current rate:

| | 1% Increase | Current Discount Rate Valuation Rate | 1% Decrease |
|--------------------|-------------|--|-------------|
| Net OPEB Liability | \$102,836 | \$92,651 | \$83,807 |
| Change | 10.99% | | (9.55%) |

h. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended April 30, 2025, the District recognized OPEB expense of \$7,412. On April 30, 2025, the District reported deferred outflows and deferred inflows of resources related to OPEB from the following sources:

Future deferred outflows/inflows of resources

| Fiscal year ending April 30 | Outflows | Inflows |
|-----------------------------|----------|----------|
| 2026 | \$3,204 | \$10,161 |
| 2027 | 3,204 | 10,161 |

OTHER SUPPLEMENTARY INFORMATION

Other supplementary information includes financial statements and schedules not required by the GASB, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

Such statements and schedules include:

- Budgetary Comparison Schedules – Major Governmental Funds
- Budgetary Comparison Schedules – Nonmajor Governmental Funds

Budgetary Data

The Board of Trustees follows these procedures in establishing the budgetary data reflected in the general-purpose financial statements:

- (1) Within or before the first quarter of each year, the Board of Trustees adopts the annual budget and appropriation ordinance.
- (2) The budget document is available for public inspection for at least thirty days prior to the Board of Trustees public hearing and the passage of the annual budget and appropriation ordinance. The Board of Trustees is also required to hold at least one public hearing on the budget.
- (3) Subsequent to the enactment of the annual budget and appropriation ordinance the Board of Trustees has the authority to make any necessary adjustments to the budget. There were no budget adjustments made during the year.

For each fund, total fund expenditures may not legally exceed the budgeted amounts. All appropriations lapse at year-end.

The budget was prepared on the modified accrual basis of accounting; the same basis used in the preparation of the Township's general-purpose financial statements.
